PROFESSIONAL EXPERIENCE

Proxym-Group

Apr 2022 - Present

JavaScript Technical Lead

- Demonstrated agility and adaptability by leading and actively contributing to a collaborative project as both the team lead and a full-stack JS developer for the [Arabius](#) cross-platform mobile app.
- Played a pivotal role as a Mobile/Web app developer in conceptualizing, designing, and implementing key features for a project aimed at revolutionizing Tunisia government financial services.
- Upgraded the fleet and inventory management system for the Dubai Government, addressing compatibility issues with modern systems by redeveloping the outdated desktop application.
- Provided technical guidance, oversaw programming decisions, and ensured the project's alignment with development strategies.
- Upheld code quality standards through code reviews and adherence to industry best practices.
- Collaborated with DevOps teams to optimize deployment processes for web, mobile, and backend components, implementing robust CI/CD pipelines and automation techniques.

Iron Tech

Oct 2021 - Mar 2022

Full-Stack JS developer

- Designed and implemented a network marketing platform ([Bossnet](#)) aimed at enhancing the bond between consumers and merchants.
- Implemented deployment of a production-grade full-stack JavaScript application.
- Directed and mentored company trainees, overseeing their development and providing comprehensive instruction.

Freelance
Web developer

Jun 2020 - Sept 2021

- Created an inventory management desktop application tailored for a Tunisian textile manufacturing company by leveraging web technologies, powered by ElectronJS.
 - Contributed to the development of multiple showcase websites for manufacturing companies.
 - Developed a dynamic website for continuous training and consulting firm (International BBA) utilizing the Django web framework.
 - Effectively managed time between freelance projects and university studies, showcasing exceptional time management skills.
 - Gathered and analyzed client requirements, proposing innovative solutions tailored to meet their needs while also considering budget constraints.
-

PERSONAL PROJECTS

Fast Admin

ReactJS-based framework built for rapid admin page development, you can transform resource schemas into fully functional admin interfaces in no time, with the ability to customize every aspect to suit your project's unique needs, it is currently undergoing trials across multiple projects, and it will be released as an open-source project in the near future.

Fast UI

Comprehensive ReactJS and React Native monorepo, leveraging the power of NX and ReactJS. It provides a fully customized UI toolkit and project architecture template tailored for large-scale React.js applications. With Fast UI, project initiation becomes 70% faster.

EDUCATION

Preparatory Cycle in MPI

High institution of applied science and technology, Sousse

Oct 2019 - Jun 2021

Software engineering

High institution of applied science and technology, Sousse

Oct 2021 - Jan 2024
